## Summary

---

Driven and adaptable, I leveraged my problem-solving skills to enhance the visitor experience and operational efficiency at Amache National Historic Site. Demonstrated a commitment to learning and excellence in grounds maintenance and visitor engagement, setting a high standard recognized by both Amache and Granada High School. Working at these locations have taught me valuable skills, such as working with a team, and leading a team. I hope to apply these skills to the field of software development.

## Skills

---

- Eager to learn
